AN EARLY COLLAPSE

The Salisbury Ministry on the Verge of Defeat.

Efforts of the Government to Strengthen the Cabinet.

Explorer Stanley and Wales—The Titus Bill—German Packers and American Pork—Cholera in France—A Dutch Steamer Sunken—Damage by Gales on the Scotch Coast—Gigantic Project to Colonize Mexico—The Newfoundland Fisheries—A Bold Abduction—Foreign News.

LONDON, June 27.—Signs of an early collapse of the Salisbury Government are increasing on all sides. The ministry have unquestionably become alarmed and are planning a new deal, which they hope will strengthen the Cabinet and restore the popularity of the Government with the many who have become disengaged with the Conservative party since its fall. The ministry are also trying to seize an opportunity to which the Government had placed itself, were not bad enough, it is making matters immeasurably worse by the childish expedients to which it is resorting to make it appear that the compensation bill has not been crammed down the ministerial throat, but was merely put aside owing to the pressure of public business. The number of gulps it has taken in swallowing the virtual defeat of the bill would have strangled a ministry less desperate in its efforts to hold on to power. The *Daily News*, in paying its respects to the government in the morning, declares that it has had a muddle of everything it has undertaken and is not even able to kill itself decently. It is stated that Lord Salisbury, in pursuance of the new deal which the Government is endeavoring to make, strongly urged Lord Harlington and Chamberlain to enter the Cabinet. The former, it is said, was not willing to accepting the responsibility of managing a ministry of no importance, and so was of no service in preventing the disintegration of the Unionist party and leaving himself in the position of a leader without a following, but Mr. Chamberlain, scanning inevitable disaster to the Government, declined to identify himself with a ministry on the verge of defeat.

THE DURHAM COLLIES.

The collies of Durham, who number upwards of 50,000 men, are considering the advisability of organizing a general strike in sympathy with the Sunderland miners who are now engaged in a struggle to prevent a reduction of their wages.

THE DOCKMEN.

The London Dock Laborers' Union is assisting the Hamburg dockmen to organize a union that city and has sent delegates to the German port for that purpose.

THE DUTCH STEAMER SUNK.

Mr. Stanhope has removed the helve which had long prevailed that he entertained an unconquerable dislike for Wales by accepting the freedom of the city of Cardiff. He will, however, postpone his visit to that place until other engagements have been fulfilled.

REGINED HIRTON.

Col. Sir James Frazer, Commissioner of the London City Police, has tendered his resignation in consequence of his advanced age.

LORD RANDOLPH CHURCHILL.

The Times says that the attempt of the friends of Lord Randolph Churchill to secure his return to the Cabinet, with the view of strengthening the Government, have not met with success.

THE TITUS BILL.

The Standard believes the titus bill will be postponed the same as the land purchase bill.

ROYAL WINDSOR SUMMER MEETING.

This was the opening day of the Royal Windsor Summer Meeting. The race for the Royal Plate was won by Mr. Noel Fenwick's chestnut colt Noverre.

THE DUTCH STEAMER SUNK.

The Dutch steamer Prins Frederik, Amstel-dam, for Java, was sunk on the night of June 25 in latitude forty-seven north longitude six west by collision with the British steamer Morpessa from Taguayor for Dunkirk. The collision occurred during a dense fog. The Morpessa has arrived at Falmouth with her bows stove and her forepeak full of water. She had on board the crew and ninety-six passengers of the Prins Frederik. Six lives were lost in the collision. The Prins Frederik was of 1,900 tons register.

THE NEWFOUNDLAND FISHERIES.

Mr. Jones, June 27.—Sir Baldwin Walker, Captain of the British war ship Emerald, has taken possession of Mr. Baird's lobster factory at Fish Lake Brook, St. George's Bay. He left four marines in charge of the premises. Mr. Baird had refused to obey two orders to close his factory. Capt. Walker also caused Mr. Baird's factory at St. George's Point to be closed. It had been running two years, so that the modus vivendi does not apply. Mr. Baird dispatched a solicitor to serve a writ on Capt. Walker for illegal trespass and violation of the modus vivendi. He will file complaint against Capt. Walker in the law courts, believing that he cannot enforce the modus vivendi legally. Twenty-six lobster packers will take the same course. There is great excitement at the modus vivendi, and the opposition to the modus vivendi is fierce.

ADMITTED HIS CHILD.

Mr. GATHORNES, Ont., June 27.—A case of abduction occurred here yesterday. A stranger drove up to the door leading to rooms on King street occupied by a lady known as Mrs. Riley. The stranger leaped from the buggy, rushed up the stairs and quickly returned with a little girl in his arms about 6 years old, and placing her in his lap drove placidly away. Shortly after Mrs. Riley appeared in the street, but just in time to see the fig disappear. On inquiry she said she was divorced twelve months ago in Rochester from L. D. Johnston, the court giving her the child. She came to Canada for the purpose of hiding from her husband, who wanted the child. Johnston probably crossed the border by this time.

THE GERMAN FISHERS.

The formula for which was first obtained from these Indians, however, nothing that modern science can do in the way of the people among whom they live can be done. The Indians are ignorant and powerless to predict, from an analysis of a plant, what will be its medicinal action. Thus it is that the leading medical colleges are content to let the Indians themselves act as their own physicians.

THE CACTUS.

The medicinal properties of nearly all herbs used in medicine have been discovered by actual experiment in their use by the people among whom they live. The Indians are ignorant and powerless to predict, from an analysis of a plant, what will be its medicinal action. Thus it is that the leading medical colleges are content to let the Indians themselves act as their own physicians.

THE BLOOD CURE.

The formula for which was first obtained from these Indians, however, nothing that modern science can do in the way of the people among whom they live can be done. The Indians are ignorant and powerless to predict, from an analysis of a plant, what will be its medicinal action. Thus it is that the leading medical colleges are content to let the Indians themselves act as their own physicians.

CHARLES H. BAYER sold 100,000 feet at the southeast corner of Olive and Locust streets, property of the Missouri Pacific Railroad Co., for \$4,450, to S. T. Biyer.

FRANCISCO M. GONZALEZ, Mex., June 27.—Also an Electric Truss and Belt Combined. Send for price list. Price, \$12.50, 24 pages, which includes a complete description of the product.

THE FASTEST AFLLOAT.

SUCCESSFUL TRIAL TRIP OF THE NEW CRUISE PHILADELPHIA.

Increased Appropriation for the Public Building at Springfield, Mo.—Congressman to Examine and Report on the Dependent Pension Bill—Washington News.

WASHINGTON, D. C., June 27.—The Secretary of the Navy received a telegram from Capt. Erben, President of the naval board, saying that the trial trip of the cruiser Philadelphia was a success and that the vessel is now at Cramp's Yard, Philadelphia. This is all the information received by the department in regard to the trial. It is officially stated, however, that the vessel deviated an average speed of 19½ knots per hour, being nearly half a knot in excess of the contract requirements. The contractors are said to be somewhat dissatisfied with the conditions of the contract, but nevertheless the vessel is capable of a higher rate of speed will ask for another trial.

THE PANAMA CANAL.

The committee which was sent to Panama to investigate the condition of the canal has made a further report on the prospects of the enterprise. The committee says that the construction of the canal at the calculated level would occupy twenty years and would cost 1,720,000 francs. In the opinion of the committee the work could only be completed on the basis of an international agreement of a syndicate of the states interested.

TROUBLE AT ERZBERG.

CONSTANTINOPLE, June 27.—Advices received here from Erzberg regarding the trouble in that city state that a detachment of Turkish soldiers searched a church there while services were being held in the belief that a quantity of arms were secreted in the building. The congregation resented this indignity and opened fire with revolvers upon the Turks. In the encounter which ensued one Turkish officer, four Armenians and eight Turks were killed and many others on both sides were wounded. A party of Mussulmen made a robust demonstration and stoned the British Consulate.

GIGANTIC PROJECT.

BOSTON, Mass., June 27.—A letter from the City of Mexico under date of the 14th inst. contains this paragraph: "A gigantic project, in which Englishmen are interested, came to my notice yesterday. I am not at liberty to say more than that it involves an investment in promoting colonization which is of a really colossal character, and it is entirely practical, no moonshine in it. If the Government approves it the money will be ready in London in a short time. It will certainly result if taken up in the settlement of a great number of the best class of colonists from Europe."

GALES ON THE SCOTCH COAST.

LONDON, June 27.—The details of the damage done by the gales on the Scotch coast during the middle of this week, show that nine vessels were wrecked and thirty-six persons drowned.

SAN FRANCISCO, Cal., June 27.—The steamship City of Rio Janeiro from Hong Kong and Yokohama brings the following advices: The steamer Paesching, Capt. Place, which left Shanghai for Hankow, was burned near the Forked Tree on Tangzetter River, May 28, and Capt. Place, Second Engineer Wilson and some twenty natives were missing and supposed to have perished. A number of Chinese vessels did good service in picking up the survivors of whom First Officer Christensen, second officer and sixty-two natives were found. The vessel was laden with a general cargo including several cases of matches. She was soon ashore and summarily dealt with.

A mutiny occurred on board the Chinese steamer Nan Shenger, lying at Woosung, about the 27th ult. Capt. Chuning Wu refused to allow the native sailors more than half pay, as the vessel was at anchor undergoing repairs. The Chinese sailors struck the soldiers and drove them from the vessel, stabbing three of them. The sailors then locked up the Commodore and Captain and proceeded to have a festive time. They subsequently released the officers and the Commodore caused fifteen of the rebels leaders to be sent ashore and summarily dealt with.

THE DUTCH STEAMER SUNK.

WASHINGTON, D. C., June 27.—The Senate has passed the bill authorizing the sale of all the property of the Chicago, Kansas & Nebraska Railroad Co. in Oklahoma and the Indian Territory to the Chicago, Rock Island & Pacific Railroad Co.

THE DEPENDENT PENSION BILL.

WASHINGTON, D. C., June 27.—The President received the dependent pension bill from Congress this morning and referred it to the Secretary of the Interior for examination and report.

LATER.

The President has approved the dependent pension bill.

Counting the Returns.

WASHINGTON, D. C., June 27.—The census officials have nearly completed the count of the returns from Washington and have commenced on New York. No other cities have yet been taken up.

SUBSCRIBERS leaving the city for the summer can have the POST-DISPATCH mailed to them at any address without additional cost, by giving the order to the carrier on their route or notifying this office.

Weather forecast for twenty-four hours, beginning at 8 a. m. to-day, for Missouri: Fair; slightly cooler; southerly winds.

Weather forecast for twenty-four hours, beginning at 8 a. m. to-day, for St. Louis: Fair, stationary temperature.

DOES Maj. WEIGEL know positively whether or not his name is on the census list?

WHEN Mayor NOONAN desires to know how hot it is he doubtless consults a barometer.

THE KNOCKED-OUT SCHOOLDIRECTORS have so little sense of decency and the fitness of things as to be indignant because they were knocked out.

THE superannuated horses which served in the recent unpleasantness have not yet been pensioned. Why this neglect of worthy veterans?

MR. DEPEW has said some nice things about Chicago's World's Fair, but he declines to be president of it. Mr. DEPEW is a wonderfully smart man.

THERE is ample evidence that St. Louis should have a new census count, but this evidence should be backed by such a vigorous demand for it that the census authorities cannot overlook it.

THE WANT ADVERTISERS of the next SUNDAY POST-DISPATCH will be entitled to tickets to the next SUNDAY POST-DISPATCH river excursion, which will fully equal if not surpass the others in enjoyment.

MAJ. WEIGEL has reopened his census schedules, and announces that he will continue to make corrections until Saturday. The Census Supervisor seems to know as little about his own mind and his business as he knows about the population of St. Louis.

THE HON. JEFFERSON CHANDLER has been interviewed in New York as a representative Missouri Democrat and a Senatorial candidate. For a self-nominated candidate, who was not permitted to address the Democratic convention of his State, does not Mr. CHANDLER assume considerable?

APPARENTLY every obstacle to a test of election on the person of Murderer KEMMLER has been swept away by the courts. Death by electricity has been declared neither unusual nor a cruel mode of punishment. KEMMLER will know more about it than the courts in short time, but his testimony will not be available.

IN choosing St. Louis instead of Chicago as the place for holding the National Sunday-School Convention the delegates at Pittsburg exercised nice discrimination. Even the Chicago delegates, recognizing the unfitness of their city for a Sunday-school convention, favored St. Louis. St. Louis is not as big as Chicago, but it is a long-sight better.

THE original package bill of the House merely confers upon the States the power to regulate commerce within their borders without discrimination it confers powers upon the States which they already possess. But if its effect will be

to give the States power to practically prohibit certain lines of commerce in which their own interests may be opposed to those of other States, as seems probable, it is a dangerous measure. The fact that it is intended as a sop for Prohibitionists subjects it to grave suspicion.

AN OUTRAGE, TOO.

Lack of judgment and intelligence in making up the schedules and arranging for the work is not the only fault of the men responsible for the census blunder. They have made it partake of the nature of an outrage and have added to its blunderous character by making the Census Bureau a political machine.

PRESIDENT HARRISON was repeatedly urged to place the appointment of the census employees under the operation of the civil service law and thus have the force selected with care and with reference to fitness for the work. But the employment of thousands of men offered too good an opportunity for political manipulation and for the strengthening of party influence for the spoilsmen to let slip. The census was made a party machine, pure and simple, and none but Republicans were appointed to any positions under the bureau. The best of evidence has been brought out to show that appointments were referred to party committees, and in Missouri and elsewhere attempts were made to turn census enumerators into political enumerators.

THE republic of San Salvador has just undergone a change of administration. Ex-President MENENDEZ and a number of his friends and supporters are dead, while the new President, CARLOS EZETA, and his soldiers are camping at the capital. We have evils in this country of great magnitude, but changing administrations by means of bullets and bayonets is not one of them, thank Heaven.

NO. 3.

THE "Post-Dispatch" Excursion No. 3 to Its Want Advertising Patrons Was a Splendid Success.

THE steamer Grand Republic took out Wednesday evening over 2,000 people. This under ordinary circumstances would be a crowd, but on the palatial Grand Republic it was just enough to give everybody plenty of room without crowding. (The Grand Republic is licensed to carry 8,500 passengers.)

The excursions taken by the river-District were such that there was nothing along the entire trip to jar the feelings of the most fastidious, and after four hours of comfort and pleasure, the merry throng disembarked enthusiastic in their praises of the POST-DISPATCH for its liberality and careful attention to their wants. The next excursion, No. 3, will be given Wednesday evening, July 9, and all placing want advertisements in the Sunday issues of June 9 and July 6 will receive cards of admission. The Grand Republic will receive the guests of the POST-DISPATCH from 6 to 7 p. m., at which hour sharp she will turn her bow down the river. Music, dancing and singing for those so inclined, all under the direction of a floor committee whose duty it is to see that everything is done decently and in order. Our advertising friends, who have favored our columns, as well as those who do not do so, are invited to make known their wants on the days mentioned, and secure a delightful evening on the river without additional cost. Don't lose sight of No. 3.

THE SUNDAY POST-DISPATCH.

TIMELY PENNSYLVANIA TREASON.

From the Philadelphia American (Rep.).

TREASON overshadows the coming convention, represented by the so-called "Chairman" of the State Committee, who has betrayed the party trust and has devoted to private and factional ends the power which was given him for the common good. It is represented by an aspirant for Governor whose candidacy hangs like a pall over the hopes of Republicans, as it is founded on political bargaining, is upheld by dangerous corporate alliances, is clouded with undicted charges of dishonesty, and must be discredited by the services of a boss-ship which, having passed through every stage of offense, has reached now that in which it degrades the manhood of the party and has become intolerable. Such is the treason to real Republicanism which obtrudes its evil presence in the convention. The insolent intrigues of Chairman Andrews to forestall the party's choice, the audacious and unworthy candidacy of Mr. Delamater for the Governorship and the degrading control which Mr. Quay has exercised over the party's actions, all tend to destroy the Republican party of Pennsylvania and to make the meeting of its convention in 1890 a milestone on the road to national disaster.

FILING UP TAXES.

From the Philadelphia Times.

Six years after the war, when Gen. Garfield, as Chairman of Appropriations, reported the pension appropriation of \$30,000,000, he excused the amount and justified the passage of the measure, because, as he stated, that was the largest sum that could ever be paid out of the paymaster fund from the time the list was made. Now, seven years later, our pension expenditures are up to \$175,000,000 with reasonable prospect of reaching the enormous sum of \$200,000,000. When Lincoln became President the entire revenues of the Government, including proceeds of public lands, were less than \$60,000,000. Now, twenty-five years after peace, and our national debt no longer oppressive, the expenses of the Government are over \$1,000,000 each day; they will reach to \$400,000,000 next year; and a large Treasury deficit is as certain at the close of the fiscal year as is the rising of the sun.

HARRISON AND VIRGINIA IN ACCORD.

From the Alexandria Gazette.

PRESIDENT Harrison is reported to have said he "thank'd God he was not born in Virginia." If he had been he would not have accepted as a gift a valuable furnished house at Cape May. If he had been, his plain face would have flushed with shame when he read that a bill had been introduced in Congress to provide sumptuous houses for the presidents of the country, because he would have known that his acceptance of the gift referred to had suggested the introduction of that resolution. Virginia thanks God Mr. Harrison was not born on her soil, whether Mr. Harrison does or not.

SHOPS POTTER'S ADDRESS TO THE Phi Beta Kappa Society of Harvard contained a timely and vigorous warning against the evils which have developed and which threaten dangerous growth in our politics. Whether he gives too dark a shade to the picture but his points against the spoils system, the use of money in elections and the demagogism which masquerades as patriotism in pension legislation are well taken. The modifying element of the condition pictured by the Bishop is the fact that we have in our hands the power to correct these evils through the ballot-box, but unless intelligent, honest citizens realize them and use their power effectively, it is worthless. Such warnings, therefore, are valuable as stimulants to beneficent public activity on the part of good men.

THE STATE TREASURER who deliberately embezzles the funds intrusted to him can either skip with them to a place of safety, ex-Treasurer BURKE of Louisiana and several others have shown, or buy out the law as has been done in Maryland and elsewhere. But the penitentiary awaits a Treasurer who turns up with an unexplainable deficit and pleads innocence.

THE "original package" bill of the House merely confers upon the States the power to regulate commerce within their borders without discrimination it confers powers upon the States which they already possess. But if its effect will be

to give the States power to practically prohibit certain lines of commerce in which their own interests may be opposed to those of other States, as seems probable, it is a dangerous measure. The fact that it is intended as a sop for Prohibitionists subjects it to grave suspicion.

ANSWERS TO CORRESPONDENTS.

READER.—The fifteenth anniversary of writing is generally known as the chin-a-

way.

W. G.—There are a number of dealers in homing pigeons in this city. Inquire at any bird shop.

C. H. B.—The name Salvator is pronounced with the accent on the second syllable, on which the a is broad. 2. Miles de Roma is pronounced with the accent on the first syllable.

MRS. HERMAN OELICHES received as a wed-

ding gift from King Kalakaua a yellow wreath which was greatly admired. It was made of the feathers of the golden-hued O-o, a bird highly prized in Hawaii.

MRS. ROSE MAURY, the daughter of a station-master in France, makes illustrations for five of the leading journals of Paris and earns a large amount of money.

BLANCHE WILLIS HOWARD is acting as a

shaper at Stuttgart for American girls who go over there to sing and pant.

PRINCESS RADZEVILLE having set the example of giving dinners in the Eiffel Tower, Paris society is following the fashion.

THE latest piece of sensational news from London is that Sarah Bernhardt is madly in love with Henry M. Stanley.

MILES, ROSE MAURY, the daughter of a station-

master in France, makes illustrations for five of the leading journals of Paris and earns a large amount of money.

THE PRINCESS LOUISE, Marchioness of Lorne, is making a statue of the Queen as she looked in girlhood, to be given to Kensington as a memorial of Her Majesty's early life there.

MRS. HERMAN OELICHES received as a wed-

ding gift from King Kalakaua a yellow wreath which was greatly admired. It was made of the feathers of the golden-hued O-o, a bird highly prized in Hawaii.

MRS. LILLIE DEVEREAUX BLAKE is one of the best looking of the women suffragettes. She is tall and she has a delicately poised head and soft gray eyes. Her hair is turning gray, but her hands and her throat have the pretty plumpness of youth.

THEY ROW THIS EVENING

EVERYTHING IN READINESS FOR THE GREAT HARVARD-YALE BOAT RACE.

A Review of the Two Crews—How Their Chances Are Resumed—New London—History of the Races Between the Colleges—How Bob Cook Brought Yale to the Front—Gossip About the Contest.

By Telegraph to the POST-DISPATCH.

NEW LONDON, Conn., June 27.—O'DAY the great annual boat race between Harvard and Yale College will be rowed here on the Thames course. This race is looked forward to in this country with as great interest as is the annual contest for aquatic supremacy between Oxford and Cambridge Universities in England. It will be late before the race is rowed here to-day, as the crews will wait until after sundown, when they will have a cooler temperature and smoother water for their arduous work. The attendance, which is always large at these races, promises to be simply enormous this evening. Everything is in readiness for the race.

The fact that Robert J. Cook, the famous coach of the Yale crews for several years past, has not been able to train the "blues" this year, has somewhat disturbed the confidence of the Yale men.

The crew of Robert J. Cook.

KING OF HORSE TAMERS.

PROF. GLEASON WRITES AN ARTICLE ON HOW TO HANDLE HORSES.

He Also Gives Some Valuable Suggestions About Riding—The Saddle, the Whip, the Spurs and Other Accoutrements That Are Used—The Right and the Wrong Way to Handle a Refractory Horse—What to Do in Case of Accident.

THE READER is one of the most intelligent of animals. He can be taught to do most anything but speak. During an experience of fifteen years I have handled over seventeen thousand of the most vicious kickers, bakers, strikers, plungers, biters, bolters, shakers and horses possessing all other vicious habits known. I have yet to find the horse I could not by my methods conquer, subdue and make docile in a short time. It is gratifying and with some feeling of pride that I mention the fact that I have not injured in any way during my long career of handling horses.

And it is of happiness to know that I have never been cruel to one of the noblest of dumb animals. My methods are simple and perfect. It is recorded in history that Alexander was the first to ride and tame his steed Bucephalus. He did it by mastering the horse and not by sheer brutality. There is a big distinction between mastering a horse and

better over the habit. In mounting, the horse should be led up to a gentleman's use, in being cut up well up to the point where the lady stands, from which he is very apt to slide away.

The gentleman assistant than places his right hand on the horse's neck, holds it, and receives the lady's left foot. Preyously to this she should have taken the rein in her right hand, and the horse is a close observer, and soon leaves to take the advantage of control, if not indeed aggressiveness. Let your lessons be thorough, but not very long, and the horse will learn quickly. The willful, stubborn horse feel the full extent of your power, until he submits.

If the horse is afraid of the fire-arms in his master's hands, with his left hand on the gentleman's shoulder and her foot in his hand, she should make a spring from the saddle, and immediately strike him with his hand, steadied by his knee, as a second foundation to hold him down and a lesson should be given to him for future.

THE POST-DISPATCH-PAGES 9 AND 10.

ST. LOUIS, FRIDAY EVENING, JUNE 27, 1890.

AUDACIOUS ROBBERY.

How They Held Up a Furniture Man for a Good Round Sum.

By Telegraph to the POST-DISPATCH.

New York, June 27.—An audacious but cleverly planned robbery took place in Tremont yesterday, whereby August Schmidt, a second-hand furniture dealer, at One Hundred and Sixty-first street and Second avenue, lost \$800 in money and valuables, besides getting roughly handled. Two men called on Agent Kellogg at One Hundred and Seventy-eighth street and Third avenue yesterday morning and told him that they wanted him to go to his office, where he was to meet them. He followed them to his office at One Hundred and Eighty-second street and Bathgate avenue. They looked and talked like experts on their business, but he chanced to notice on Mr. Kellogg's desk more than usual papers. When they volunteered to pay him the deposit necessary to secure his release in due time, he asked them what it was in at once. He handed the keys over to them and congratulated himself on securing ten dollars without trouble. They had no trouble when he sent around to collect the rent. A little later the two men paid a visit to Mr. Schmidt's store and told him that he had sold some furniture which they wanted to sell and were in such a hurry to sell it that they would let it go at a great sacrifice. They made such a good impression upon Schmidt as they had upon the agent. He readily consented to accompany them on the way and threatened to throttle him if he said a word. When Mr. Schmidt attempted to expostulate the prisoners were immediately convinced that expostulating would do no good. Then the two men went through him in a thoroughly expert manner, telling him that they had the sum of the wad of bills, \$200 in all. They took him of the wad of bills, extracted a diamond pin from his shirt front and tore from a very little time they had relieved him of everything that he possessed or portable property that he had. They then instead of gazing at him or locking him up in a cupboard the audacious robbers added insult to injury by telling him that he must now do away with themselves out of a back door. It took Mr. Schmidt some time to recover his breath, but he lost no time in reporting the matter to the police. Detectives were put on the case, but up to a late hour last night neither of the men had been arrested.

TO ADVERTISERS.

Owing to the large amount of the fast-mail train, advertisements for the SUNDAY MORNING POST-DISPATCH must be in the office before 9 A.M. on Saturday morning. Parties advertising in these columns and having the answers addressed in care of P. O. Box 2000, will receive a copy of the paper to get their letters, as none will be delivered except on presentation of check or bill. All parties answering advertisements must have their replies directed to their own POSTOFFICE address.

LODGE NOTICES.
